RELIGIOUS READING.

The value of churches and grounds in the United States up to July, 1897, was \$680,000,000.

The Rev. Sam Small has been appointed conference evangelist by the Georgia conference.

Eld. F. W. Allen will preach at the Christian church again next Sunday morning and night.

A bronze bust of Dr. J. J. Rucker, the work of Miss Enid Yandell, of Louisville, was unveiled at Georgetown College.

The next annual convention of the Kentucky Young Men's Christian Association will be held at Maysville on Feb. 17-20.

The Messenger says that Sam Jones left Owensboro with \$1,000 good dollars in his inside pocket, contributed by those who attended his meeting.

The Richmond Christian church has a total enrollment of 550, with an active membership of about 400. During the year 1897 there were 76 additions.

Fanny Crosby has written over 4,000 hymns. She has been totally blind from infancy, is now 77 years of age, and lives in Brooklyn, N. Y. Charles Wesley wrote 6,700 hymns.

Mr. George T. McRoberts asks us to say that Eld. J. G. Livingston will preach at the Christian church at Brodhead on the fourth Sunday morning and night in this month.

Mrs. Jennie Sigler, of Henderson, thought she was sanctified and too good to be a wife. She abandoned her husband, Dr. J. R. Sigler, who has now been granted an absolute divorce.

Judge J. K. Sumrall, of Danville, Boyle county, has recently made a donation of \$10,000 to assist in founding the Southern Presbyterian Theological Seminary at Louisville.—Central Methodist.

Chicago is reported to have 583 orthodox Protestant churches, with an aggregate membership of 153,326, and an average of 263 members to each church. This is exclusive of Unitarian, Universalist, Jewish and Roman Catholic churches.

A meeting of Baptist ministers of Knoxville, asked Rev. J. T. Hickman, pastor of the Smithwood church, to resign. He was convicted of betraying a girl while conducting a revival at Maryville. He is a married man and has three children.

Rev. Thomas E. Moore fell dead from an apoplectic stroke in the midst of his sermon at the Baptist church in Harper, Kas. Mr. Moore was one of the five young men who, in 1895, originated the Salvation Army movement in London, and was one of the first to start the crusade in this country.

From the sick room at Friedrichsruh come loud and savage denunciations of the vanity, misery and folly of life. "I have never known happiness," says Bismarck. "I have lived too long. Death would be a joyous relief from a never light burden that has now become an intolerable torture." What a proof of the words of Solomon: "Vanities of vanities. All is vanity."

Presiding Elder, Rev. Dr. Vaughan, received a telegram Monday from his wife, in El Paso, Texas, announcing the sad news of the death of his daughter, Miss Evangeline. Miss Vaughan, some time since, had gone South for her health and recently becoming ill from the dread disease consumption, her mother had gone to her bedside. The remains will be brought here.—Harrodsburg Sayings.

KIDD'S STORE.

Mrs. Walker Lyon has had a charming guest in Miss Lena Palmer, of Madison county. It is said that Walker was forced to add a bell-boy to his corps of servants and finds a new door bell on the want list for New Year.

Riffe Academy, the famous educational institution of this city, closed its annual term on 24th. Miss Essie Burch, as principal, demonstrated in the universal infatuation of pupils a magnetism that is as rare as enviable, and the phenomenal progress of the children induces determination to place an embargo on her employment elsewhere so long as we can tempt her return.

A PRONUNCIATION PUZZLE.—Cleopatra, isolated in the oasis, soon became acclimated and had ample leisure to contemplate all the economic details of her inextricable sword. The wound resisted the allopathic misogynist, who gave a courteous diagnosis and humbly craved precedence for a tiny idyl in the form of a vase with an aesthetic, acoustic apparatus. This told the news like a book, but it might have been a dog living in squalor from the look she launched at him, when he wrote down his address. She ate her breakfast and then fraternized with a national expert in appendicitis, who attended the obsequies.

The thimble swallowed by a little daughter of W. E. Harris at Harrodsburg, N. C., was located in her lung by an X ray and removed and the child is now out of danger.

LANCASTER.

The county supervisors will meet again on Tuesday, 18th, to hear reasons why certain property shall not be raised.

Judge J. S. Robinson is out after a few days illness. Dr. Elijah Evans has moved from his farm into the Marrs house on Richmond Avenue.

Louis Leavel, colored, was fined \$50 and given 20 days in jail in Judge Burnside's court for carrying concealed weapons, having drawn a pistol on R. W. Fletcher.

Senator G. T. Farris was given the chairmanship of the committee on claims and placed on banks and insurances, federal relations, military affairs and suffrage and elections.

The coroner's jury, which investigated the cause of the death of Rev. E. Richie, whose body was found near the depot Sunday morning, returned a verdict of death from heart disease.

Senator Farris has introduced a bill to repeal that part of the mob law which requires a county to furnish guards over property. If the bill passes it will have some effect on the turnpike question in this county.

Both of our banks elected the old officials and directors, except that in the Citizens National, W. O. Rigney was promoted to the office of assistant cashier. He is a worthy and competent business man and has been in that institution for nine years.

Burglars entered the house of W. B. Mason Wednesday night, went through his pockets and papers, taking his watch and some handkerchiefs. The watch is opened-faced, gold, Elgin No. 50, size 16. They also went through Mrs. Margaret Gill's house and got \$2.50. Suspicious parties were seen here on Wednesday.

Mr. Solon B. Henry, superintendent of Lancaster Cemetery, kindly gave me the number of burials in the last two years. Fifty-two were buried in 1896 and only 37 in 1897. This shows a much more healthful state of affairs in the last than in the first year mentioned, notwithstanding the talk of so much sickness last year. People forget.

On Monday, Judge J. S. Robinson and Mr. J. W. Miller, presidents of the two Danville roads, on which gates were destroyed last Saturday night, applied to Judge Burnside for guards. Four men were allowed and toll is being collected in the face of the threats made by the raiders. It is said that some who travel over the roads that are not free decline to pay toll, on the grounds that they should not be required to do so, and also to pay tax to purchase other roads where no toll is charged. They claim that this would be paying their own toll and helping to pay for others in other parts of the county.

The fiscal court convened on Wednesday to hear propositions in reference to the sale of other turnpikes. Before noon they purchased the four miles of the new Danville road, which lies in this county, for \$700. If bonds are authorized in November the cash will be paid, but if not 4 per cent interest will be paid until the debt is liquidated by annual payments out of a levy of 25 cents on each \$100 of property. The price given was the amount at which the road was valued by the commissioners, who were sent out for that purpose, and the court will not vary from the values fixed by them, in any instance. So the owners of the other roads must accept or reject the figures fixed on them. The court will convene again Friday.

A sensation was created here on Wednesday when it was reported that Circuit Clerk Hamilton had refused to accept County Judge Burnside's bond because it was not offered in time, the law requiring it to be made on the first Monday of the year. The judge, clerk and County Attorney Owsley drove to Stanford to submit the matter to Judge Sautley who, I understand, advised the clerk to take the bond for reasons which are only partially known to me. Likely one was because he could hold under his old bond until another was executed, and because no one could declare the office vacant, without some legal proceeding in which the facts would be developed and because there is some conflict between the constitution and the statute fixing a certain day for the execution of the bond. Judge Burnside says that the bond had been signed for some time and he had neglected to submit it to the circuit clerk.

The cyclonic tendencies of the last several days climaxed in a terrible tempest at Fort Smith, Ark., which killed 50 people and wounded hundreds of others. Wrecked houses caught fire and added further horror to the situation.

A Maine girl earned \$200 last summer selling four-leaf clovers at 10 cents each to a Boston jeweler, to be made into good luck bangles.

Chief Haager, of Louisville, has issued an order to the police to see that no red-birds are kept in confinement on their beats.

Full many a flower is born to blush unseen
And waste its sweetness on the desert air.

Thus sang the poet Gray, but we are determined that the beautiful bud, whose picture is given above shall not suffer in that way. Miss Lillie Martin, daughter of Mail Contractor J. G. Martin, of Stanford, is, as the picture indicates, one of the handsomest specimens of her sex to be found anywhere, being tall, well proportioned and as pretty of feature as she is of form. With the rosiest of cheeks, teeth like pearls and eyes like stars, her chiefest charms can not be portrayed by artists even as capable as those of the INTERIOR JOURNAL corps. Though but 18 years old, she is fearless and daring and recently when, on account of sickness, there was no one else to take the mail to Kingsville, she mounted the vehicle herself and made the trip through the knobs of 35 miles, unaccompanied and on time. She doesn't mind work and turns her hand to most anything in home affairs.

BIRTHDAY PARTY.

MRS. H. H. McANINCH'S 70TH CELEBRATED AT MIDDLEBURG.

One of the most beautiful and impressive events that has been witnessed in our little town was the elegant birthday dinner at Mr. H. H. McAninch's on Saturday last, in honor of his wife's 70th milestone. By 10 o'clock the house was crowded with children, grandchildren, great-grandchildren, and old friends from Boyle, Lincoln and Casey counties. All seemed in great glee and harmony characterized every movement. At 12 o'clock the dining-room door was thrown open and dinner announced, and all those who had the pleasure of entering should feel highly honored, for never in time did human eyes behold a more beautiful table. There was nothing in the eatable line left out and with Mrs. Mattie Wesley, Mrs. Lula McAninch and Misses Malissa and Jennie McAninch as waiters, the guests were well attended to and all seemed to enjoy the dinner hugely. Their children, seven in number, except one, Mrs. Mary Williams, of Junction City, who was too feeble to attend, grandchildren present too numerous to count, and two great-grandchildren of Mrs. Ella Cowan were present. The total number in attendance was 58. Mrs. McAninch was the recipient of a great many presents. Those present took their departure at 4 o'clock and they felt as if they were lifted for a time into a higher and purer realm and departed hoping that another year would find the dear old father and mother as happy and as able to receive their guests as they have been on this beautiful occasion. Your correspondent was invited but was unable to attend and he is indebted to Mrs. Lula McAninch and Miss Jennie McAninch who took notes for him.

HUBBLE.—D. N. Prewitt bought some fat hogs of Frank Rigney at 3c. and some shoats of R. L. Hubble, Jas. Wilmot and Underwood Bros. at 2.65. Miss Mamie Lynn is visiting Mrs. Geo. Woods. Dr. O'Bannon was called to see Bill Williams' child Tuesday, which had the pneumonia and bronchial trouble. The turkey sales of this community in 1896 amounted to \$2,987.91, at 5 and 6c. and in 1897 to \$2,835.53 at 6 and 7c. G. A. Swinebroad received a load of cattle from Tennessee Wednesday. George Wood is back from Chattanooga, Tenn., with a lot of sloop cattle. Jos. Sutton sold his crop of tobacco in Louisville this week for 9c average. Dr. Evans, of Texas, preached a good sermon at the Methodist church here last Sunday morning and night.

A statement of the results of the operations of the L. & N. for the past six months shows the gross earnings were \$11,054,737; operating expenses, \$7,294,575; net earnings from traffic and income, \$4,046,006, an increase in net earnings compared with 1896, of \$298,761. The total surplus is \$1,075,043, an increase of \$400,801. An increase of 34.01 per cent in net earnings for six months is an excellent showing, and probably exceeds that made by any line in the South.

The body of Theodore Durrant was cremated at Pasadena, Cal.

THE LEGISLATURE.

A bill to raise the age of consent of girls from 12 to 16 is before the House. Mr. North's bill to prevent the marriage of first cousins has been favorably reported.

The House adopted a resolution by Mr. Charlton calling on the United States Senate to reject the Hawaiian annexation.

Mr. Petty, of Grant, has presented a bill to correct technicalities and prevent the expression of the people being thwarted in local option elections.

Mrs. Emma Guy Cromwell, librarian, turned over \$1,800 to the auditor's office. She has made the office self-sustaining and filled it with great credit.

There doesn't seem much probability of abolishing the office of register of lands when Senator Farris' legislative friends are grooming him for that position.

One of the bills introduced in the Virginia Legislature in the interest of good roads provides that persons sentenced to the county jail shall be formed into chain gangs and set to work upon the public highways.

Mr. Chinn, of Mercer county, will introduce a pure food bill that proposes to require that all adulterated food, liquors, drugs or anything manufactured for consumption shall be labelled when adulterated, and it lays a heavy penalty for a violation of the proposed act.

The revenue and taxation committee will recommend the consolidation of the offices of sheriff and jailer, to take effect at the expiration of the present term of the officers elected in November, except in the case of Jefferson county, where the change will go into immediate effect.

The speaker appointed the House committees Monday. Following are the chairmen of the more important ones: Judiciary, J. Morgan Chinn, of Mercer; general statutes, B. W. Bradburn, of Bowling Green; corporations, Claude Desha, of Harrison; railroad, J. M. Meloon, of Callaway; revenue and taxation, Emmett Orr, of Owen; charitable institutions, John T. Hinton, of Bourbon; municipalities, S. Atwood Smith, of Louisville; State prisons, South Trimble, of Franklin. Hon. M. F. North is given the chairmanship of propositions and grievances and a place on general statutes, court of appeals and on printing. Hon. J. R. Mount is chairman of immigration and labor.

The caucus for librarian was a lively affair and it had to adjourn at midnight Tuesday dead locked. The first ballot stood: Miss Hardin, 17; Miss Calhoun, 15; Miss Sublett, 13; Miss Barnett, Miss Lucas, and Miss Crutcher, 9 each; Mrs. Martin and Miss Cochran, 8 each; Miss Ingles, 7; Mrs. Boyd, 6. Mrs. Boyd, Miss Lucas and Miss Cochran were dropped after the fourth ballot in the order named. On the ninth and last ballot the other candidates stood as follows: Miss Hardin, 20; Miss Calhoun, 17; Miss Ingles, 14; Miss Barnett and Sublett, 13 each; Mrs. Martin and Miss Crutcher, 12 each.

Wednesday night on the 20th ballot the joint democratic caucus at Frankfort nominated Miss Pauline Hardin, of Covington, for State Librarian. The final ballot stood before the nomination was made unanimous: Miss Hardin, 47; Mrs. Martin, 22; Miss Ingles, 18; Miss Sublett, 13. Mrs. Martin announced her candidacy two years hence.

A rural citizen of Georgia, who feels that he has been slandered by a neighbor, writes to the Atlanta Constitution to say:

Too the Publick About a Slander—some man, with his name is well-known: I forbear too Denounce the sneaking devil as he deserves, being a Chrystin, and follower in the Golden Rule, though a Free Silver man in politics. But I want to say if he sed Sister Holly Higgins sed the Preecher sed that I sed that Heethen Missions mout be a dam, he is a Lier in Prayer meetin and endurin Church, an I kin whip him with one hand tied behind my back—weekday or Sundaa!

Miss Mattie Buckley, of Barren, took strychnine in the presence of her lover, Joe Sims, with whom she had quarreled, and died in a short time.

Rachael Bush, John Bush, Sr., and John Bush, Jr., respectively mother, father and son, were sentenced at Beattyville to serve five years each in the penitentiary for burglary.

The child of W. L. Sullivan, of Paducah, weighing only 24 pounds, is dead.

THE INTERIOR JOURNAL

STANFORD, KY., - JAN. 14, 1898

W. P. WALTON.

HON. M. F. NORTH buckled down to business Monday and although it was not an unusually good day for presenting bills and resolutions he got in the following: A bill to amend the school law with reference to election of trustees; to prevent persons from offering for sale the flesh of any diseased animal or one dying otherwise than by slaughter; to amend the statutes so that examining courts shall not receive more than \$2 for one day's service; to deduct pay for special judges from that of the regular judge, unless the latter be sick or disqualified; to provide that guards to convicts shall receive 10 cents a mile but one way in conveying them; to make it unlawful for first cousins to marry and declaring incestuous and void all such marriages; to prohibit persons from setting a fire, which is liable to spread to the land of another; to abolish the State board of equalization; to abolish and consolidate with that of auditor the office of register of lands and to require owners of dams across certain streams to construct and keep in repair fish ladders over said dams. In addition to these he presented a resolution for a constitutional amendment to create a board of pardons, to consist of the lieutenant governor, secretary of state, auditor and attorney general, who make recommendations when advisable for executive clemency, and another to abolish the office of commissioner of agriculture. All of the bills are good and the resolutions in the line of retrenchment and reform and if Mr. North shall succeed in having them adopted, he will come back to a grateful constituency wearing feathers in his cap and laurels on his brow.

We had never a doubt that Marcus Aurelius Hanna would not be elected Senator from Ohio, though we had hoped that he would not be. With unlimited means at his disposal, with the McKinley administration which he owns at his back, and venal republican legislators to work on, it was hoping against hope though, that this reprehensible figure in politics would be eliminated. After all the talk about a majority against him and after the proved stories of attempted bribery by him, he showed up on the first ballot in the separate Houses with enough votes to elect and he was elected by joint ballot Wednesday. United States Senatorships are usually put up to the highest bidder and this disgraceful episode in such elections calls louder than ever for the election of senators by a direct vote of the people. It isn't so easy to bribe them.

SENATOR JONES, of Barren, is going after a record with a vengeance. He never expects his party to be in power again so he has presented a bill to reduce the salary of nearly every important officer in the State from governor to circuit judge, which if adopted would save the State \$60,000 a year. He would reduce the judges of the court of appeals to \$3,500, circuit judges to \$2,000 and so on. Many of the salaries, if not all, are too high, but it is not likely that a bill for such sweeping reductions will be passed, especially on the recommendation of a republican, who does so for buncombe to help him in the race he expects to make for Congress.

THE fact that the editor of this paper is referred to in the Louisville Times as "the old sinner" is proof positive that that old reprobate, Mr. Laurie J. Blakely, late of the Covington Commonwealth, is helping Emmett Logan to make the editorial page corrupt. He is not as well acquainted with the meek and lowly Christian spirit which engineers this journalistic craft as his partner in crime, or he would never be guilty of such indiscretion. If the Times wishes to avoid a libel suit, the management will see that we are hereafter referred to as a saint and not as a sinner.

WE have received with the compliments of the Courier Journal its splendid almanac for 1898. It is replete with valuable information, its 500 pages treating of over 10,000 subjects more or less at length. Matters of interest to every class of citizens is contained in it and at the low price of 25 cents no one can afford to do without it. Send amount to the Courier Journal Co. and get it postpaid or leave it with us and we will see that you get it.

AFTER a week or two of debate, during which the republicans gave the civil service law all sorts of hard licks, the talk was brought to an end Tuesday after a tie vote, 125 to 125, which the speaker untied by voting in the affirmative. Then the body went right along and passed the appropriation for the civil service commission just as if no assaults had been made on it.

It is said that a member has already drawn up a resolution requesting Senator Lindsay to resign, which he will introduce if he is not confined in the Home of the Simples in the meantime.

WHEN two footpads attacked the conductor of a street car in Chicago and tried to rob him, the three male passengers jumped off and ran, but Miss Sadie Williams went to his rescue and with her hair pin succeeded in putting the robbers to flight. Afterwards, very woman-like, she thought the matter over and fainted. A picture of the heroine and her weapon is now having a great run in the dailies.

THE Louisville Commercial is moving into its new quarters on Market Street and will begin the issue of an evening one cent paper in a few days. Under the management of Mr. Frank Gregory, this paper has taken on a new lease of life and promises to go at the head of the procession.

Now that the race for librarian has been settled the Legislature can get down to real business. Miss Pauline Hardin, of Covington, was nominated and her picture shows that she is as beautiful as it is claimed by her friends that she is worthy.

POLITICAL POINTS.

The president has appointed John F. Jones postmaster at Catlettsburg and Thomas Mason at Ludlow.

Of the 20,000 Washington government clerks, nearly one-third are women, who receive from \$600 to \$1,800 yearly.

James R. Pugh has announced his candidacy against his brother, Sam J. Pugh, present Congressman from the 9th district.

Senator Money, of Mississippi, will be chosen as chairman of the democratic Congressional committee to succeed Senator Faulkner.

By a majority of only one Hanna was foisted on the country till March, 1905, but it took many \$10,000s to do it.

The republicans nominated Miss Nora Vansant, of Metcalfe, for librarian, thus making her the victim of a misplaced confidence.

Marcus A. Hanna was elected United States Senator at the joint session of the Ohio Legislature for both the long and short terms. He received 73 votes.

At last things are coming the farmer's way. J. Hoge Tyler is the first tiller of the soil Virginia has called to the gubernatorial chair for 40 years.

Speaker Reed has called a halt on private pension bills, and the House pensions committee will hereafter refuse to consider the majority of these measures. Good!

Charles Page Bryan has been appointed minister to Brazil, and the Chinese mission, for which Mr. Bryan was first selected, has been given to Edwin H. Congor, of Iowa.

The Ohio Legislature voted down a resolution to investigate the charges of bribery made against Hanna, but they will be investigated by the newspapers and the courts.

Senator Chandler, after a conference with President McKinley, announced that the latter stands firmly in favor of international bimetalism and intends to again send envoys to Europe.

Judge Paul, of the Federal court at Bristol, Tenn., has taken another swipe at State sovereignty, holding that State taxes can not be collected on property in the hands of receivers of his court.

The people of Louisiana, by a decisive majority, have voted for a constitutional convention, the principal object of which will be the adoption of an educational qualification for voters.

Senator Farris presented a bill to amend the mob law so as to compel corporations desiring guards to bear the expenses, which if passed, will amount practically to a repeal of the Martin law.

It is said that President McKinley will in a few days issue an order exempting from civil service regulations deputy internal revenue collectors, deputy marshals and several other positions.

Miss Mary E. Nason, of Boston, who has been appointed by Gov. Wolcott factory inspector of the police force, has had a wide experience in labor circles, and is regarded as a conservative and clear-headed woman.

A dispatch from Washington says that Col. D. R. Collier, who is there, acknowledges that he has no chance for the surveyorship, which is more the pity. His friends in this section hoped to see him fill the place again.

The Mississippi Legislature, in separate session, cast a majority of votes for H. D. Money for United States Senator, but owing to a difference between State and Federal statutes will take another ballot next Tuesday.

"We can look the Dingley bill over and can point to nearly a hundred million dollars taxes levied directly upon the poor people of the country and placed in the pockets of the trusts."—Letter of A. L. Conger, a republican and a member of the staff of Gov. Bushnell, of Ohio.

Shoe manufacturers are about to make a cut in wages, and the responsibility for it is laid upon the Dingley tariff, which put an exorbitant duty on raw hides. The Armour's and big packing concerns are benefited by the duty, but it does not appear just where the protection to labor comes in.

President McKinley telegraphed his congratulations to Hanna as follows: The result now plainly forecast is one in which our best citizenship, irrespective of party, will profoundly rejoice. I congratulate you heartily, not only

upon a victory beneficial to the country, but upon your leadership in a contest worthily won, under the most trying circumstances.

Commissioner Evans will make himself unpopular with the pension attorneys if he doesn't mind. He says of them: "There are good men engaged in the pension attorney business, but the majority of them remind me of that beautiful bird that sails through the air so gracefully, but which the laws prohibit killing. The government has continued to pay pension attorneys for soliciting business for 30 years. Enough of this has been done. A law should be passed that in future no fee should be paid any attorney or claim agent for any claim filed for pensions. That would put an end to the pension scandals."

The Louisville Post publishes a telegram from New York that the Journal, which has supported Bryan from the start, has thrown him overboard, because he is showing narrowness, or irritating obstinacy, either of which should be detrimental to his ambition, and must be harmful to the immediate prospects of the movement he represents. The persistency with which he clings to 16 to 1 as if that were not only the solitary tenet in the democratic creed, but the axis of the revolving cosmos, betrays either Mr. Bryan's incapacity to comprehend Bryanism or his dogged disposition that refuses to acknowledge what is presented to his eyes, and those of every other intelligent man in the country, whether for or against the Chicago platform of the new democracy.

After the above was put in type, Miss Jeannie Feland came in to advertise for such a robe and on being directed to the judge, it was found that the one he had was hers. Some mischievous rascal had evidently transferred it from one vehicle to the other. *
